ABOUT US

Magnus Group cordially invites you to the **“2nd Edition of Global Conference on Physical Medicine and Rehabilitation” (GCPR 2024)** which is going to be conducted as a **Hybrid Event** in **Madrid, Spain** and **Virtually** during **September 09-11, 2024**.

The upcoming summit aims to shine a spotlight on the theme **“Empowering Recovery: Integrative Approaches in Physical Medicine and Rehabilitation.”** Medical advancements, particularly in Physical Medicine and Rehabilitation (PM&R), are progressing rapidly. Among these advancements, the development of assistive devices for disabled individuals stands out as one of the most impactful innovations in PM&R. While these innovations greatly enhance treatment and quality of life for the disabled, they also pose

challenges for physiatrists who must continually enhance their skills and stay updated with the latest research to provide optimal care for their patients. The lack of recognition for PM&R specialists is a widespread issue globally.

GCPR 2024 serves as a global platform for physiotherapists to connect and exchange knowledge on education, research, and clinical practices, addressing critical professional concerns in the field of physical medicine and rehabilitation. The conference will explore interventions in terms of their practical applications and evidence, with plenary talks, keynote sessions, oral and poster presentations emphasizing the importance of communication, collaboration, and interdisciplinary teamwork in delivering physical medicine and rehabilitation services.

As always, the patient perspective will play a crucial role in the scientific program. Physical medicine will offer integrated and interdisciplinary care aimed at facilitating healing by addressing patients’ physical, psychological, vocational, and social needs. This will provide an opportunity for healthcare practitioners, researchers, scientists, educators, policymakers, and therapists to delve deeper into the relevant field. The congress will also foster increased collaboration between PM&R specialists and community organizations. With renewed optimism, we are confident that GCPR 2024 will be driven by a commitment to promoting excellent healthcare standards and securing the future of PM&R as a specialty.
